

M. Zain Khalid

Full Stack Software Engineer

Ph : +923274923692 Gmail : zainkhalid0347@gmail.com

SUMMARY

I'm a Full Stack Developer with over 3 years of experience building web, mobile, and API solutions that make a real difference. I work across the full technology stack from React.js and React Native on the frontend to Node.js and PHP on the backend and I'm comfortable with databases like MySQL, PostgreSQL, MongoDB, and Redis. What drives me is creating applications that don't just work well technically, but actually solve problems and help businesses run more smoothly. I've had the opportunity to lead development teams and collaborate with colleagues across different departments to deliver projects that align with company goals. I believe great software comes from combining solid engineering practices with genuine teamwork and clear communication.

TECHNICAL SKILLS

React.js	5	Redux	5
React Native	5	HTML & CSS	5
Node.js	5	GraphQL	4
Express.js	5	AJAX	5
Socket.io	5	Socket.io	5
Next.js	5	Axios.js	5
MySQL	5	PostgreSQL	5
Type ORM	4	TypeScript	5
MongoDB	5	Redis	3
REST APIs	5	Docker	3
NestJs	5	CI/CD	3

PROFESSIONAL EXPERIENCE

Soflo (Full Stack Developer)

2024 – Present

- As a Full Stack Developer at the company, designed and implemented APIs, presenting technical outputs and architecture details directly to the Lead
- Analyzed user needs and software requirements to guide feasible redesigns, consistently delivering projects ahead of schedule.
- Developed, released, and maintained 15+ custom applications for clients, with a strong focus on blockchain and decentralized technologies.

Quantix (Senior Software Engineer)

2022 - 2024

- Developed scalable web and mobile applications with a strong focus on user experience and performance.
- Built modular, reusable components using React.js, React Native, and TypeScript.
- Collaborated with designers and backend teams to deliver cohesive, high-quality solutions.
- Led code reviews and debugging to maintain clean, efficient, and reliable codebases.

Reylex (Mern Stack Developer)

2021 - 2022

- Built scalable web and mobile apps with a focus on UX, performance, and responsive design.
- Developed reusable components using React.js, React Native, TypeScript, and Tailwind CSS.
- Implemented RESTful APIs and real-time features with Node.js, NestJS, Socket.io, and Redis.
- Managed data with MySQL, PostgreSQL, MongoDB, TypeORM, and Knex.js.
- Collaborated with cross-functional teams to deliver high-quality, seamless solutions.

Preon Cloud (Software Engineer)

2020 - 2021

- Developed and maintained software applications using PHP and JavaScript.
- Worked closely with senior engineers to design and implement new features and improve system performance.
- Assisted with backend development and integrated APIs for external applications.

EDUCATION

- **Bachelor of Information Technology (BSIT)**
- **Intermediate in Pre-Engineering**
